PROFESSIONAL SUMMARY

Results-driven full-stack web developer with 1+ year of professional experience building and shipping production-grade web applications for a marketing agency and government clients. Specializes in **Next.js, React, and the MERN stack**, with a proven track record of digitizing real-world business workflows across immigration processing, healthcare scheduling, and inventory management. Complements technical depth with hands-on experience in augmented reality mobile development and data-driven UI design. Graduated **Cum Laude** with a **97.67 GWA** from Lorma Colleges, demonstrating consistent academic excellence alongside active client delivery.

EDUCATION

Lorma Colleges

La Union, Philippines

Bachelor of Science in Computer Science

June 2025

- Graduated **Cum Laude** — GWA: **97.67%**
- Relevant Coursework: Software Engineering, Object-Oriented Programming, Operating Systems, Event-Driven Programming, Data Structures & Algorithms, Information Assurance and Security

EXPERIENCE

BYND DIGITAL

La Union, Philippines

Junior Web Developer

July 2025 – Present

Digital marketing agency delivering full-stack web solutions for local and international clients

- Engineered a full-stack immigration processing web application for **Kmaris**, digitizing the end-to-end US visa workflow and reducing document processing time by **70%**, handling **150+ client applications** with a fully paperless system.
- Delivered a real-time appointment booking system for **The Oracle PTRC**, replacing error-prone Google Sheets with a live scheduling dashboard managing **30+ daily bookings**, eliminating double-bookings and saving **~6 hours/week** in administrative overhead.
- Developed an inventory management system for **APP Construction Supplies** in San Juan, La Union, tracking **300+ SKUs** with automated low-stock alerts — reducing stock discrepancy errors by **85%** and cutting manual audit time by **65%**.

Department of Science and Technology — Region 1

San Fernando, La Union

Software Developer Intern

June 2024 – August 2024

- Developed a Human Resource Job Application web portal using **HTML5, CSS, JavaScript, PHP**, and **MySQL**, streamlining the hiring pipeline and eliminating manual paperwork across DOST Region 1.
- Assisted in organizing the **HANDA Pilipinas Luzon Leg and 2024 RSTW** (July 3–5, 2024, Laoag City); produced event slide decks, operated multimedia systems during breakout sessions, and provided on-site technical support for seamless execution.
- Provided **technical support and troubleshooting** for office hardware and software, resolving printer malfunctions, network connectivity issues, and software glitches to maintain seamless daily operations.

PROJECTS

Produkto Elyukal

React Native • Supabase • FastAPI • ViroReact

- Built an **augmented reality mobile application** showcasing local products in La Union, featuring a Mapbox-powered shop map navigator enabling tourists and residents to explore regional goods directly from their phones.

DOST HR Website

HTML5 • CSS • JavaScript • PHP • MySQL

- Created a government job listing portal enabling applicants to browse openings, upload documents, track application status, and receive automated email notifications.

Kmaris Immigration App

Next.js • MongoDB

- Designed and deployed a full-stack immigration platform to digitize US visa workflows for Kmaris, enabling real-time application tracking across **150+ client cases** with zero paper-based records.

The Oracle PTRC Appointment App

Next.js • SQL

- Architected a scheduling platform for a physical therapy clinic, replacing Google Sheets with a **real-time booking calendar** managing **30+ daily appointments** and eliminating scheduling conflicts entirely.

APP Construction Supplies Inventory System

MongoDB • Express.js • React • Node.js

- Delivered a real-time inventory management system tracking **300+ SKUs** with automated low-stock alerts and analytics dashboards, replacing all manual tracking workflows for a local construction supplies business.

TECHNICAL SKILLS

Languages: Java, Python, C#, TypeScript, HTML, CSS, JavaScript, PHP

Libraries & Frameworks: React, React Native, Next.js, Django, Node.js, Express.js

Developer Tools: Git, Firebase, Supabase, MongoDB, HuggingFace

Platforms & CMS: WordPress, Odoo

CERTIFICATIONS & ACTIVITIES

DICT ICT Proficiency Diagnostic Exam — Passer

March 2025

- Passed foundational evaluation covering programming logic, data structures, OOP, networking, and database systems — qualifying toward the DICT ICT Proficiency Certification and Civil Service EDP Specialist Eligibility.

SILLAG Provincial Startup Summit & Hackathon — Regional Qualifier

May 2024

- Co-developed **BantAI**, recognized as one of the **top two student innovations** at the La Union leg of SILLAG Region 1 2024; advanced to represent the province in regional finals.

Natural Language Processing Seminar — Attendee

October 2023

- Completed a two-day intensive NLP seminar (National University & Bicol University at Lorma Colleges) covering language modeling, text preprocessing, and applied NLP tools.
