PROFESSIONAL SUMMARY

Full-stack developer with **1+ year** of professional experience building production web and mobile applications with Next.js, React, React Native, Node.js, MongoDB, SQL, and Supabase. Delivered healthcare scheduling, inventory, fleet management, GPS tracking, and government recruitment systems that replaced manual workflows. Cum Laude BS Computer Science graduate experienced in augmented reality and data-driven interfaces.

EXPERIENCE

BYND DIGITAL

Junior Web Developer

La Union, Philippines

July 2025 - Present

- Built and maintained production applications for local and international clients, translating operational requirements into responsive, reusable workflows using modern JavaScript technologies.
- Delivered The Oracle PTRC platform, replacing Google Sheets with a real-time scheduling dashboard managing an estimated **30+ daily bookings**, eliminating double-bookings, and saving an estimated **6 administrative hours per week**.
- Developed inventory and fleet-management systems for APP Construction and Supply, tracking an estimated **300+ SKUs**, reducing stock discrepancies by an estimated **85%** and manual audit time by an estimated **65%**, and integrating SAFECAR for real-time GPS vehicle tracking.

DEPARTMENT OF SCIENCE AND TECHNOLOGY - REGION 1

Software Developer Intern

San Fernando, La Union

June 2024 - August 2024

- Developed an HR job application portal using HTML, CSS, JavaScript, PHP, and MySQL, enabling applicants to browse openings, upload documents, track application status, and receive automated email notifications.
- Produced event slide decks, operated multimedia systems, supported on-site events, and resolved office hardware, network, and software issues.

SELECTED PROJECTS

The Oracle PTRC Appointment App

Next.js | SQL

- Architected patient, provider, and administrative workflows with a real-time booking calendar, role-based access, and appointment management.
- Replaced spreadsheet coordination with structured scheduling and conflict-prevention workflows.

Produkto Elyukal

React Native | Supabase | FastAPI | ViroReact | Mapbox

- Built an augmented reality mobile application showcasing locally produced goods from La Union.
- Implemented a Mapbox shop navigator and connected the React Native app with Supabase and FastAPI for product discovery.

APP Construction and Supply

React | Node.js | MongoDB | Leaflet | SAFECAR API

- Created an inventory module with stock monitoring and low-stock visibility for daily materials tracking.
- Developed fleet-management workflows and integrated SAFECAR real-time GPS tracking in a centralized dashboard.

EDUCATION

LORMA COLLEGES

Bachelor of Science in Computer Science, Cum Laude - GWA: 97.67%

La Union, Philippines

June 2025

Relevant Coursework: Software Engineering, Object-Oriented Programming, Operating Systems, Event-Driven Programming, Data Structures and Algorithms, Information Assurance and Security

TECHNICAL SKILLS

Languages: Java, Python, C#, TypeScript, JavaScript, PHP, HTML, CSS

Frameworks and Libraries: React, React Native, Next.js, Django, Node.js, Express.js, FastAPI, ViroReact, Leaflet

Databases and Tools: MongoDB, MySQL, SQL, Supabase, Firebase, Git, Hugging Face, Mapbox, SAFECAR API

Platforms and CMS: WordPress, Odoo

CERTIFICATIONS AND ACTIVITIES

DICT ICT Proficiency Diagnostic Exam - Passer | March 2025: Passed the foundational evaluation covering programming logic, data structures, OOP, networking, and databases.

SILLAG Provincial Startup Summit and Hackathon - Regional Qualifier | May 2024: Co-developed BantAI, recognized among the top student innovations at the La Union leg and advanced to the regional finals.
